JOB DESCRIPTION:

8 hours of labour by the artist. Labour will be undertaken on an agreed date, and will be carried out using a domestic knitting machine, of type Brother 950i or similar. The labour will result in the production of a knitted banner (design '8 HOURS LABOUR'), which will act both as a document of the labour and as a proof of purchase. **The knitted banner is not 'the work'. There is no 'work' - there are only contracted hours of labour.**

TERMS AND CONDITIONS

I understand that I am buying only the artist's time and labour, at a recognised and appropriate rate, based on the 'Sample fees and day rates for visual artists' research by The Artists Information Company (A.N), funded by Arts Council England (ACE). I understand that the knitted textile that results from this labour is simply a document and proof of the labour, and not an artwork, and has no value in and of itself. I understand that the artist will make the best efforts to undertake the labour on the date specified, and will notify me at least one week ahead if the labour cannot take place on the date, in order to arrange a new date at the convenience of the buyer.
